Re: Estuardo Valdemar Rodriguez and Leonor Rodriguez  
(EVR)  
WREV(AM), Reidsville, NC  
Facility Identification Number: 41442  
Special Temporary Authority (STA)  
BESTA-20191011AAG

Dear Mr. Rodriguez:

This is in reference to the request filed on October 10, 2019. EVR requests an extension of the STA granted on April 16, 2019, to continue operating with reduced power to allow time to file the required FCC Form 301 application due to a reduction in the licensed tower height.<sup>1</sup> In support of the request, EVR stated that it plans to file the application to permanently reduce the tower height.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and EVR may continue to operate daytime-only using the reduced height tower and a maximum of 0.5 kW. EVR must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR §1.1310. EVR must submit an e-mail to my attention to note the date the application was filed to allow our staff to determine if any changes to this STA must be made.

---

<sup>1</sup> WREV(AM) is licensed for ND daytime only operation on 1220 kHz using 1 kW.

This authority expires on **April 30, 2020.**

Sincerely,

A handwritten signature in blue ink, consisting of a large loop followed by a series of smaller, overlapping loops and a final horizontal stroke.
